# INTRODUCING W2 PRECISION TWO CIRCUIT TRACK SYSTEM

**The New Precision Two Circuit Track System** is crafted in our company owned, ISO-9001 certified manufacturing campus with UL certified labs. Specification grade luminaires available for multiple applications.

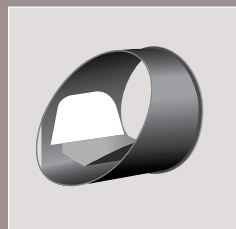

## KEY FEATURES

- ▶ 120/277v extruded aluminum track, rated for 20 amps per circuit
- ▶ Each track head holds up to 3 lenses plus 1 component, ideal for the most demanding lighting applications
- ▶ Variety of beam altering components and lenses makes for precise control and customized lighting effects
- ▶ Available suspensions include standoffs and new aircraft cable varieties
- ▶ VAMP track luminaires offer a variety of lamping options including energy efficient T4 HID and LED light sources
- ▶ Anodized Platinum, Black and White powder coat finishes offered
- ▶ Five year warranty
