W2 ARCHITECTURAL LIGHTING WALL WASHERS

Bridging function and design, W2's new family of versatile Wall Washers offers an unprecedented range of mounting and lamping options for any commercial space. Architectural Wall Washers are engineered to deliver high performance and an even distribution of light, and styled for visual continuity throughout the area. Mounting options include uplight, downlight, and ceiling mount, for an array of applications. A dozen lamping options offered: metal halide, compact fluorescent and halogen in a variety of wattages. Available in White, Black and Platinum finishes.
