

ARCHITECTURAL
LIGHTING

Tel: 866.788.2100 • W2lighting.com
Represented throughout Canada

Select up to two accessories per lamp module. No additional holders or fasteners required.

Configurations consist of a single row of modules up to six (1x6) or a double row of two modules (2x2).

Vertical aiming indicators allow precise light control.

Modules are fully adjustable. Extend, tilt, rotate and lock into position.

PRECISION MODULES

Multi recessed luminaires crafted with aimable, lockable and adjustable elements that employ a robust architectural style and superior performance.
